ADVANCED SOLTECH PUBLISHES PROSPECTUS IN CONNECTION WITH LISTING ON NASDAQ FIRST NORTH GROWTH MARKET

On 22 September 2021, the Board of Directors of Soltech Energy Sweden AB (publ) ("Soltech Energy") resolved to offer the shareholders in Soltech Energy to acquire ordinary shares in Advanced Soltech Sweden AB (publ) ("Advanced Soltech" or the "Company"), a power producer of green energy that finances, owns and operates rooftop-mounted solar PV panel installations in China, (the "Offering") and in connection therewith list the Company's ordinary shares on Nasdaq First North Growth Market (the "Listing"). The Company has in connection with the Offering prepared a prospectus which today has been approved by the Swedish Financial Supervisory Authority ("SFSA") and published on the Company's and Soltech Energy's respective website. The first day of trading on Nasdaq First North Growth Market is expected to commence on 29 October 2021.

The Offering in brief

- Nasdaq Stockholm AB has, subject to customary conditions, made the assessment that Advanced Soltech meets the applicable listing requirements on Nasdaq First North Growth Market.
- Shareholders in Soltech Energy will be allotted one (1) purchase right (Sw. *inköpsrätt*) for each share held in Soltech Energy on the record date, 11 October 2021. Thirteen (13) purchase rights grant the right to acquire one (1) Advanced Soltech share for SEK 27.
- In aggregate, 7,272,043 ordinary shares in Advanced Soltech, corresponding to 23.2 percent of the outstanding ordinary shares in Advanced Soltech (votes as well as capital), will be offered for sale.
- Soltech Energy will use the proceeds to subscribe for the corresponding number of new ordinary shares in Advanced Soltech at the same price, so that the proceeds for ordinary shares sold in the Offering will be allocated to Advanced Soltech and Soltech Energy's number of shares in Advanced Soltech will not decrease as a result of the Offering.
- Isac Brandberg AB and Stiftelsen The World We Want have made guarantee commitments totalling approximately SEK 50 million, corresponding to approximately 25 percent of the Offering, for a guarantee fee of 6 percent. If there are additional amounts that are not subscribed after these guarantees, the existing principal owners Soltech Energy and

Advanced Solar Power Hangzhou Inc. have undertaken to subscribe for shares in the Company corresponding to the remaining part of a maximum of approximately SEK 146 million, corresponding to approximately 75 percent of the Offering, without the right to compensation. The Offering is thus fully guaranteed.

- The sale of the Advanced Soltech ordinary shares included in the Offering will bring in SEK 196 million to the Company before deduction of expenses related to the Offering.
- The Company reserves the right to issue additional ordinary shares to qualified investors at a subscription price corresponding to the price in the Offering for the purpose of raising additional capital if the demand exists among such investors.
- In connection with the Listing, all preference shares in the Company will be converted into 9,810,221 ordinary shares with a total value of approximately SEK 265 million, corresponding to 116.25 percent of the amount paid for the preference shares issued in September 2020 and 115 percent of the amount paid for the remaining outstanding preference shares.
- The price in the Offering corresponds to a pre-money market capitalisation of Advanced Soltech's ordinary shares of approximately SEK 845 million.
- The first day of trading in the Company's ordinary shares on Nasdaq First North Growth Market is expected to 29 October 2021, and the share will be traded under the ticker symbol "ASAB". The expected settlement date is 2 November 2021.

Max Metelius, CEO, comments:

"Since the start, Advanced Soltech has financed, installed, owned and operated rooftop-mounted solar PV installations in China and today has a portfolio of 134 electricity-generating solar PV panel installations with a combined capacity of 192.5 MW. The Company has reached a stage in its development where the business model has become commercially viable, and we intend to increase the capacity rapidly and strive to achieve a total capacity of 1,000 MW as early as 2024. Over the past year, we have been working towards an IPO and feel well prepared for this next step in our journey."

Frederic Telander, Working Chairman of the Board, comments:

"We are very proud of Advanced Soltech's history of high quality and strong growth in a value-driven organisation. The Company is today an established player within solar energy in China and has a proven business model. We see great growth and development opportunities and with the Listing we hope to welcome more shareholders to join our continued journey in the fast-growing market for green energy in China."

Background and reasons for the Offering

The forthcoming Offering together with the Listing of the Company's ordinary shares on Nasdaq First North Growth Market enables Advanced Soltech to take advantage of the growth opportunities that exist in the Chinese market for solar power, make visible the values that exist in the Company and create a stable, long-term basis for the Company's continued development.

Terms and conditions for the Offering

Shareholders in Soltech Energy on the record date, 11 October 2021, will be allotted one (1) purchase right for each share in Soltech Energy. Thirteen (13) purchase rights grant the right to acquire one (1) Advanced Soltech share from Soltech Energy. SEK 27 should be paid in cash for each acquired Advanced Soltech share.

In the event not all ordinary shares in the Offering are acquired by exercise of purchase rights (primary purchase rights) Soltech Energy's Board of Directors will, within the framework of the Offering, resolve on the allocation of Advanced Soltech ordinary shares without support from purchase rights.

Isac Brandberg AB and Stiftelsen The World We Want have made guarantee commitments totalling approximately SEK 50 million, corresponding to approximately 25 percent of the Offering. If there are additional amounts that are not subscribed after these guarantees, the existing principal owners Soltech Energy and Advanced Solar Power Hangzhou Inc. have undertaken to subscribe for ordinary shares in the Company for the remaining part of a maximum of approximately SEK 146 million, corresponding to approximately 75 percent of the Offering, without the right to compensation. The Offering is thus fully guaranteed and Advanced Soltech will through the issue of 7,272,043 ordinary shares bring in SEK 196 million to the Company before deduction of expenses related to the Offering.

The sale of the Advanced Soltech ordinary shares included in the Offering will bring in SEK 196 million to the Company before deduction of expenses related to the Offering. In order to ensure that Soltech Energy owns the same number of ordinary shares in Advanced Soltech after the Offering as before the Offering and that the proceeds for ordinary shares sold in the Offering will be allocated to Advanced Soltech, Advanced Soltech will carry out a directed issue at the same price as in the Offering, of the same number of ordinary shares sold in the Offering to Soltech Energy

The record date in Soltech Energy for obtaining purchase rights is 11 October 2021. Last day of trading in the Soltech Energy share including rights to allotment of purchase rights in the Offering is 7 October 2021. First day of trading in the Soltech Energy share excluding rights to allotment of purchase rights is 8 October 2021. Application to acquire Advanced Soltech ordinary shares shall be made between 13 October 2021 – 27 October 2021. Trading with purchase rights occurs between 13 October 2021 – 25 October 2021 and is arranged on the OTC list through beQuoted (BQ Broker).

For purchase rights that are not exercised, no financial compensation will be paid. Shareholders who receive purchase rights should take into account that taxation takes place in different ways depending on whether the purchase rights are exercised, sold or expire unused.

In connection with the Listing, 99,050 preference shares of series A and 14,750 preference shares of Series B, a total of 113,800 preference shares, will be converted into 9,810,221 ordinary shares and new Articles of Association will be adopted, meaning that the Company will only have one class of shares. The preference shareholders shall receive ordinary shares with a value of approximately SEK 265 million, corresponding to 116.25 percent of the amount paid for the preference shares issued in September 2020 and 115 percent of the amount paid for the remaining outstanding preference shares.

About Advanced Soltech

Advanced Soltech is a power producer of renewable electricity that finances, owns and operates rooftop-mounted solar PV installations in China. The Company enters into 20-year contracts with the owners of large properties, which undertake to purchase the produced electricity over the duration of the contract. The electricity purchased from Advanced Soltech is priced at a discount of approximately 10–15 percent compared to the price that the customer would pay for electricity from the grid.

Advanced Soltech is headquartered in Stockholm, Sweden and the wholly-owned local operating subsidiary Advanced Soltech Renewable Energy Hangzhou Co. Ltd. ("**ASRE**") is headquartered in Hangzhou, China.

ASRE was founded in 2015 as a joint venture between the Swedish solar energy company SolTech Energy Sweden AB (publ) and the Chinese solar panel producer Advanced Solar Power Hangzhou Inc. with the vision of accelerating the migration to renewable energy through a solar as a service offering, where the electricity produced by the solar PV installations is sold to the customers instead of the solar PV installation itself.

With its solar as a service offering, Advanced Soltech is able to create interest from previously untapped customer segments within the rapidly growing renewable energy market in China as the Company's solution offers an easy and attractive alternative to traditional solar power solutions where the property owners themselves would have to install and maintain their own solar PV panel installations.

Advanced Soltech has, as of 30 June 2021, a portfolio of 134 electricity-generating solar PV panel installations with a combined capacity of 192.5 MW and has reached a stage in its development where the business model has become commercially viable. In addition to the operating solar PV panel installations there is a pipeline of projects with a combined capacity of 123 MW. In addition, there are signed contracts corresponding to 37 MW.

Information to distributors

Solely for the purposes of the product governance requirements contained within: (a) EU Directive 2014/65/EU on markets in financial instruments, as amended ("**MiFID II**"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593 supplementing MiFID II; and (c) local implementing measures (together, the "**MiFID II Product Governance Requirements**"), and disclaiming all and any liability, whether arising in tort, contract or otherwise, which any "manufacturer" (for the purposes of the MiFID II Product Governance Requirements) may otherwise have with respect thereto, the shares in the Company have been subject to a product approval process, which has determined that such shares are: (i) compatible with an end target market of retail investors and investors who meet the criteria of professional clients and eligible counterparties, each as defined in MiFID II; and (ii) eligible for distribution through all distribution channels as are permitted by MiFID II (the "**EU Target Market Assessment**"). Solely for the purposes of each manufacturer's product approval process in the United Kingdom, the target market assessment in respect of the shares in the Company has led to the conclusion that: (i) the target market for such shares is only eligible counterparties, as defined in the FCA Handbook Conduct of Business Sourcebook, and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**UK MiFIR**"); and (ii) all channels for distribution of such shares to eligible counterparties and professional clients are appropriate (the "**UK Target Market Assessment**" and, together with the EU Target Market Assessment, the "**Target Market Assessment**"). Notwithstanding the Target Market Assessment, Distributors should note that: the price of the shares in the Company may decline and investors could lose all or part of their investment; the shares in the Company offer no guaranteed income and no capital protection; and an investment in the shares in the Company is compatible only with investors who do not need a guaranteed income or capital protection, who (either alone or in conjunction with an appropriate financial or other adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom. The Target Market Assessment is without prejudice to the requirements of any contractual, legal or regulatory selling restrictions in relation to the Offering.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II or UK MiFIR; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the shares in the Company.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares in the Company and determining appropriate distribution channels.

This information is information that Advanced SolTech Sweden AB (publ) is obliged to make public pursuant to the EU Market Abuse Regulation. The information was submitted for publication, through the agency of the contact persons set out above, at 2021-09-28 14:30 CEST.
